

The St. Mary Magdalen Middle School Science classes is inviting you to join us for World Vision's Global Walk for Water. Water is often something we take for granted, and we don't think of people in our global community who don't have access to clean drinking water. People, often women and children, spend hours each day walking to obtain water that is not clean. This is the only water they have, and it often makes them sick.

The following link has two short videos which you can watch at home or share with friends [worldvision.org/clean-water-news-stories/compare-walk-for-water-cheru-kamama](https://www.worldvision.org/clean-water-news-stories/compare-walk-for-water-cheru-kamama).

This walk usually takes place in Seattle each year, but due to the pandemic the walk will take place anywhere you want.

Mrs. Tyndall will be walking at Willis Tucker Park and invites you and your family to join her.

DATE: Saturday, May 22, 2021

TIME: 10:00 am or anytime

LOCATION: Wherever you are, or go to Willis Tucker Park and walk (socially distanced) with other St. Mary Magdalen families.

Please make sure you sign up using our St. Mary Magdalen link <https://www.teamworldvision.org/team/15091>

Thank you for your support!
